

## THE PERSONAL JET DEFINED.

The Vision® Jet is the culmination of enthusiastic and relentless innovation. As the world's first Personal Jet™, the Vision Jet excels in performance and is simple to fly. It's easy to own and operate. And it's a joy to travel in, as a pilot and as a passenger.

With the Vision Jet, we ushered in a new era of personal transportation. An era where jet speed, jet comfort, and jet convenience are accessible. And after winning numerous accolades and awards — including the Robert J. Collier Trophy — we are just getting started.

## TRANSFORMATIVE LUXURY CABIN

Designed around the largest cabin in its class, the uniquely constructed carbon fiber fuselage creates spaciousness, with unexpected head and shoulder room. And panoramic windows provide an immersive experience for everyone in the cabin.

Modular seating adds versatility to the cabin — accommodating up to five adults and two children. Family seating features three cabin seats with two optional child seats, while Executive Seating offers two luxuriously bolstered seats and a center console. Each seat can easily be moved, giving you the added flexibility to tailor the cabin configuration to your needs.

## ELEVATED CAPABILITIES

Every travel mission is unique. From passenger and gear loads to weather changes and distances, the Vision Jet adapts to your specific travel needs.

With Generation 2, an expanded flight envelope to FL310 broadens your options. Increase your range to over 1,200nm or choose to carry an additional 150lbs on an 800nm mission. And with Reduced Vertical Separation Minimum (RVSM) capability, your Vision Jet can fly efficiently navigate higher flight levels. It's one more way to experience The Cirrus Life™, at jet speed.

## UNCOMPROMISING SAFETY

Like every Cirrus aircraft, the Vision Jet is designed with the occupants in mind. An abundance of design features and innovative systems combine to provide the ultimate level of safety for the pilot and the passengers.

## ROBERT J. COLLIER TROPHY WINNER

The Vision Jet is the recipient of the prestigious Robert J. Collier Trophy, awarded each year by the National Aeronautic Association each year since 1911.

Throughout the history of powered flight, the NAA has been the steward for the nation's most prestigious aviation awards. As the most notable of these awards, the Collier Trophy represents an historical timeline of the most celebrated advancements in flight and air safety.
